StarBoard® Bathroom Partitions

Moisture-proof, low-maintenance restroom partitions, CNC-cut to your layout.

StarBoard is a solid polymer (HDPE) sheet built for the moisture, traffic and constant cleaning that restrooms demand. Counter Pro Inc. can cut it to your dimensions on our CNC equipment, giving you clean, consistent panels and doors for new construction, renovations and replacements.

Why StarBoard for restroom partitions

Moisture-proof
Doesn't absorb water, so it won't swell, warp or delaminate.

No rust, no rot
No metal skin to corrode and no wood core to rot away.

Easy to clean
A non-porous surface wipes clean and handles routine cleaning.

Tough, impact resistant
Takes knocks without cracking or denting like thin metal.

Solid color throughout
Color runs through the whole sheet, so there is nothing to peel.

Low maintenance
No painting, sealing or refinishing needed over the years.

Where it works

Schools | Gyms & locker rooms | Restaurants & retail | Parks & campgrounds | Marinas & pools

What Counter Pro can do

- CNC-cut StarBoard sheet to your dimensions
- Quotes for single restrooms or whole buildings
- Help with layout and material questions
- Serving NH, southern VT, MA and RI

How to get started

1. **Send your layout.** Number of stalls and rough sizes; a sketch works.
2. **Choose your color.** Call or email us to see what is available.
3. **Get your quote.** We'll price the job and talk through timing with you.

Let's talk about your project
